

How to Use Access NSF

Access NSF provides an easy and secure way to reach internal NSF services and resources when you are working remotely. You can use Access NSF to check your email, use NSF applications such as eJacket, visit websites like Inside NSF, or to connect directly to your desktop computer located at NSF.

What You Need

- A computer with a high-speed Internet connection
- A Web browser (with current updates)
 - Internet Explorer
 - Firefox
 - Safari
- Your SecurID token

**Some features and applications will require Java*

How to Connect to Access NSF

1. Go to remote.nsf.gov
2. Click on *Access NSF*
3. Enter your User ID and SecurID Passcode
4. Click *Login*

The screenshot shows a web form titled "Secure Logon". The instructions read: "Please enter your User ID and SecurID Passcode. Your Passcode is your PIN + the number displayed on your SecurID token (the Tokencode)." Below the instructions are two input fields: "User ID:" and "Passcode:". At the bottom of the form is a "Login" button, which is circled in red in the image.
